Leaving debt March 1, 1893	\$4029 27

There was no money raised for breaking roads for the year 1892, because the town neglected to appropriate any at their annual election, and also, there was no money raised to pay debt and costs in suit Prescott vs. Deerfield. Had the town appropriated money sufficient to pay these two bills it would have left the town in debt March 1, 1893, only \$1096.50 instead of \$4029.27. We hope at the next annual meeting, the citizens and tax payers of Deerfield will take an interest in raising and appropriating money necessary to defray the expenses of the town, and, by so doing, will make the taxes more equal from year to year.

To the Auditors of Accounts.

We the undersigned, submit the foregoing report for the year ending March 1, 1893.

GILMAN STEARNS,	} Selectmen.
F. E. KALLENBERG,	
BYRON SWETT,	

This certifies that we have examined the foregoing account of the transactions of the Selectmen and this report of the financial standing of town of Deerfield March 1, 1893, and find them correct and properly vouched.

JOHN M. FREESE,	} Auditors.
ISAAC H. MORRISON,	
WILLIAM F. CHASE,	

Deerfield, N. H., March 3, 1893.

ISAAC H. MORRISON,	
WM. F. CHASE,	
	Town of Deerfield.

SCHOOL REPORT.

In preparing the report for our schools we find little that is new to present for your consideration. We have maintained twelve schools, twenty-three weeks in length; 230 pupils have attended, only eighteen of which have a record of perfect attendance. The number of occasional absences recorded is 4852, or 2426 days, equal to a little more than the amount of schooling which one scholar would receive in 21 years.

What is the cause and who is responsible for this state of affairs? The weather was unusually good when schools were in session; sickness has not prevailed to any extent, and it is useless for any one to urge that any considerable part of these absences are due to such causes. Nor can the responsibility be laid upon the teachers.

We think that all have worked faithfully, though all have not been equally successful. The best record comes from one who was least successful as instructor, but who had the cordial support of parents. We believe that the majority of absences are without excuse and are due to carelessness, or what is worse are the result of home influences. There is nothing that will destroy a child's interest in school more surely than hostile feelings at home toward the teacher; and there is seldom if ever an excuse for any one to discuss the merits or demerits of a teacher before her pupils. It can never remedy a fault if one exists and can only do harm.

As far as possible we obtained the services of experienced teachers. Doubtless others might be retained if we had felt able to pay them the amount of wages which they could obtain elsewhere. As it were we employed an uncommonly large number of beginners, who with one or two exceptions gave good satisfaction. Teachers should avail themselves of every opportunity for improvement and if possible attend some good training school. Especially should the younger teachers and those who intend to teach see to this. It is true that some have attained a high degree of success by their own exertions, but this does not prove that all can do so, or that special training is of no advantage. A normal school cannot supply the requisite faculty to teach or govern, but a knowledge of normal methods and the science of teaching is likely to make even a good teacher a better one. We have purchased and placed in each of our schools one copy of Shaw's Business Forms, to be used as a reference book; also a few copies of Dole's American Citizen for supplementary reading. This gives us a good supply of text books, but leaves us without dictionaries and with only two globes. We recommend that a sufficient number of dictionaries to supply our schools be purchased this year. The need of a new school house at the "Birches" becomes more urgent every year. As this matter was placed in the hands of a special committee,

we will only say that it would be saving quite an item in our expenses if the scholars could be divided between Butler's Corner and West Deerfield. The matter should be well considered before a new house is built.

We have called your attention to some of the unpleasant things about our schools, but we would not have you think they have been a failure. On the contrary many of them have never been better. Good order has generally been maintained and there has been a marked absence of local disturbances throughout the town. Yet there is much we can do to make our schools better. Let us first see that those who should attend school are there regularly and promptly, and then strive to awaken in them a more ardent love for study. To this end we would invoke the hearty and practical co-operation of the whole district. We must put into our schools and foster the growth of whatever we would have reappear in the intellectual and moral growth of the next generation. In this way we may perpetuate what is best in ourselves and when dead our works will live after us.

The amount of money appropriated for the support of the schools, including the Jenness fund, literary fund and dog tax was \$1873.36. The number of scholars returned by the Selectmen, 160: boys, 85; girls, 75.

HOME, SWEET HOME!

We are now located in OUR NEW BUILDING on the same site where we have carried on a successful Hardware business for nearly 50 years.

THE NEW "VARICK" BUILDING

Is substantial and modern in every respect, and is pronounced by the trade *to be one of the best adapted buildings for the*

HARDWARE BUSINESS

To be found in the United States.

We shall continue to occupy the Storehouse adjoining and the combined buildings give us a floor space of over 60,000 sq. ft.

As we have room enough for storage purposes, we are enabled to purchase our goods in immense quantities, and thus obtain the very lowest market prices.

We extend to all our friends a cordial invitation to look us over.

JOHN B. VARICK COMPANY,
Varick Building. Manchester, N. H.
